

Climate Smart Agriculture

Stories from farmers in the Eastern Caribbean States

Are you part of an organization and have a story to tell?

Let us know about innovative agricultural technologies or practices that contribute to farmers' resilience and adaptation to climate change, making the agricultural sector more climate smart.

Prizes Include:

A professional documentary and an all-expenses paid trip to the awards ceremony in St. Lucia, plus additional national level prizes.

Application Period:
March 30th – May 30th
